

17th International Neuroscience Winter Conference

Sölden, Austria, April 7 - April 11, 2015

www.winterneuroscience.org/2015

Description

This conference has been established as a high-quality meeting on contemporary neuroscience in the past years. For the 17th conference we aim at topping previous programs by inviting most distinguished neuroscientists as keynote speakers and select high-quality symposia. Soelden is an Alpine village about 1 hr drive from the city of Innsbruck in Austria. The venue is a 5-star Spa hotel in one of the largest ski resorts in Austria with a restaurant carrying prestigious awards by international restaurant guides. Normally, 120 - 150 participants, among them a large number of recognized scientists share the opportunity to meet colleagues in a relaxed and cosy atmosphere. During the day, time for skiing in the high altitude ski resort is perfectly possible even in April.

Conference Structure

Keynote Lectures:

Bernhard Bettler (Switzerland) Molecular insights into the regulation of GABA_B receptor trafficking and signaling

Moritz Helmstaedter (Germany) Title to be announced

Alejandro Schindler (Argentina) A novel view of neurogenesis and memory encoding in the dentate gyrus

Hongjun Song (USA) Single-cell analysis of adult neural stem cells and neurogenesis

Posters:

(contributions from all fields of basic neuroscience are welcome; abstracts and registration to be submitted before the abstract deadline: Feb. 17th 2015)

The program will start on April 7th in the afternoon and finish on April 11th about 13:00 hrs

Scientific Organizers

Alois Saria, chair (Austria)

Tobias Bonhoeffer (Germany)

Nils Brose (Germany)

Stephan Schwarzacher (Germany)

Organized by

Univ.Prof. Alois Saria

Brainplattform.net e.U.

Upcoming Deadlines

Abstracts: Feb.17, 2015

Registration: Mar.17, 2015

Contact

Prof. Alois Saria (chair)

Conference Secretary: Christiane Riedl, Center of Psychiatry and Psychotherapy, Department of General Psychiatry and Social Psychiatry, Experimental Psychiatry Unit, Innrain 66a, 6020 Innsbruck, Austria

Phone: +43 512 504 23715 (secretariat)

Fax: +43 512 504 23716
